Stories of the Vienna Forest, Waltz. (new)... Matuschka, Russian Ballad....... Genevera of Brabant, Quadrille..... Slow Work .- The schooner Kamoi is perhaps the fastest vessel in our coasting fleet; but on her last trip she was two days and 16 hours on the passage from Maui to Honolulu. Had a vote been taken among her passengers, while lying becalmed off Molokai, as to whether government should build a new steamer, there can be no question the

ayes would have carried it. HOT AND DEBILITATING .- The weather during the past week has been extremely warm, and altogether out of season, seeing that this is October, The thermometer in our office has risen to 880, and day after day has bung at 87 °, while the windwhat little there has been came from the southward. After midnight, however, is the best part of the twenty-four hours, for then the Kehau (landbreeze) cools the atmosphere until an extra cover-

ing is comfortable on the bed. CORROBORATED .- An examination by the authorifies of the springs near the Kapena falls last week, fully sustained all that the ADVERTISER has said in successive articles on the subject of the water-supply. Mr. C. W. Hart, in charge of a gang of prison laborers, was employed up to Thursday noon in the work of turning the water of the springs entirely into the reservoir and shutting off the ditch water. Mr. H. has had a large experience in connection with the water-works, and has executed the present job with care and thoroughness.

PREACHING IN CHINESE .- On Sunday evening last, n the Bethel church occurred an unusual and very interesting ceremony-the baptism by the Rev. Dr. Damon of a Chinese convert to Christianity, in the presence of a large number of his countrymen. To the few other foreigners who were present-Americans and Englishmen-the services that preceded and followed the ceremony were sufficiently novel-Mr. Sit Moon, the Chinese colporteur, conducted the Council will be held at any time when the Sovereign services. These began with singing of hymns by the congregation in Chinese to familiar tunes, such as 'Rock of Ages," etc. Prayer, and a sermon from Matthew 28:19.20. Of course the latter was "all Greek " to us; but the speaker was evidently earnest and fluent, and his countrymen listened with marked attention. The convert, at his own request, was christened Paul. He is yet a young man, is said to be well educated in his own language, and bears an excellent character. This is the fourth native of China who has been admitted to the Bethel church within the past few years. Sit Moon, the colporteur, appears to be doing a good work among his countrymen, whose respect he has evidently se-

> To the Editor of the Pacific Commercial Advertiser: Sir.-Will you please publish part of a letter, which I have just received from a correspondent on a neighboring island, in reference to the late report of the Board of Health, and my reply to the same, and thus oblige your obedient servant, L. SMITH.

> "I had read the report of your examination before the Board of Health in a previous paper with aston-ishment and mortification, and wondered what you would say in reply to such an ordeal. The questioning of the licensed scientific doctors seemed to me an effort to bring you into contempt, not only as a quack, but as a silly ignoramus. But your defense in the P. C. ADVERTISER of the 25th, brings you out clear from the charges preferred against you. "It is a manly, straight forward, truthful and heroic defence; and you will find a multitude of gen-

erous and candid people with you in this unhappy trial-not of Hawaiians only-but of thoughtful foreigners as well." HONOLULU, October 6th, 1875. To the Editor of the Pacific Commercial Advertiser: Str.-A man "wise in his own conceit," and doubtless very cunning in the art of "rhabdomancy," is my friend "Malihini." I am disappointed in his second attempt; I expected better things of him, and was prepared for the enunciation of more stable arguments against the building of the steamer than had yet been advanced by the owner or agent of the two unfortunate schooners " whose | patches as to the proceedings. occupation's gone." But he evidently exhausted himself in his first essay, his second being but iteration. Not one of my arguments does he disprove; not a single new idea does he present. He "says" and he "asserts" with silly pomposity his rusty own abnormal and self-propounded questions with the adroitness of a lovesick maiden. From crown to sole, I cannot in all conscience discover any soundness in him. His writings show only that they emanate from the brain of an individual who is "a child in intellect though a man in years." He talks of government interference, and appeals despairingly to the four corners of the heavens to bear him witness that no other government ever built or run a steamer for the public weal, or ever did anything that might be done by private enterprise. Ergo, no government has constructed rail-

To the Editor of the Pacific Commercial Advertiser Sin .- The communication, published in your paper of last Saturday, under the anonymous signature of "Vindex," together with a translation from the native paper, Lahui Hawaii, endeavors in very Illchosen language to attack the surgeon of the Queen's Hospital and indirectly the Board of Trustees of that institution, and therefore cannot pass without com-

ment. The communication affects to doubt the efficiency of the Queen's Hospital, while the quarterly reports of the physician to the Board of Trustees, regularly published in the newspapers of this place, prove to the satisfaction of any intelligent reader, that under the management of the present physician, assisted by the present purveyor, the Hospital has increased in popularity and in usefulness. Figures show better than words and substantiate the fact; that the number of inmates and of outdoor patients has largely exceeded during the latter years, those of any previous period. So much therefore for the veracity of your correspondent in regard to the

Queen's Hospital. As far as concerns a dissatisfaction on the part of the patients with the attention and comforts, as well as the general treatment, received at the hands of the physician and purveyor of the Queen's Hospital, we can only say, that not a single complaint has been made to the Executive or Visiting Committee; on the contrary, native as well as foreign patients have on inquiry invariably expressed themselves contented and well cared for. It is well known to the patients that it is the Visiting Committee's special duty, on its weekly visits, to inquire into the wellbeing of the inmates; and by notices in the Hawaiian and English languages, posted on the walls of each ward, the patients are particularly required to address their

complaints and grievances, if any, to the said Committee. Still none have been made. There will be no necessity for any further remarks to refute the statements made by your correspondent; they are clearly without any foundation whatever, and certainly not intended for the good of the people, for whose benefit the Queen's Hospital was established By the authority of the Executive Committee of the Board of Trustees of the Queen's Hospital,

Foreign Summary. A clergyman at Pittsfield, Connecticut, has de-clined to marry a couple because the groom couldn't repeat the Lord's Prayer. Little Louis Napoleon will soon be able to ap-preciate the benefit of his experience in that bap-

Messrs. Moody and Sankey evince an unwilling-ness to tackle a Democratic Congress on the Lord's behalf; and accordingly their revival efforts in Washington will occur two months prior to the assembling of that body.
